

Green Class Reading Log

Welcome to your Green Class Reading log! This is your space to record the books you read and share your opinions about different texts. Please record the date and page numbers you have read and then include a comment. This comment should include **one or more** of the following:

- a plot summary of the story so far
- Your favourite/least favourite character and reasons why
- A prediction for what might happen next. For example 'I think the character is going to find treasure inside the box she found on the train.'
- An inference- make a suggestion about a character or an aspect of the story based on some of the information you have so far. For example 'The character might be quite shy because they are described as always quiet when around others.'
- A new word you have learnt and the definition.
- A fact you have learnt (if you are reading a non-fiction book)
- Your favourite sentence/word and reasons why.
- A book you have read before that reminds you of this one
- Anything else you want to share about the book you are reading so far!

A typical entry might look like this:

Tilly and the Time Machine

01/09/2022

Pages 1-10

This book reminds me of *Matilda* because the main character is a little girl. Tilly seems like a clever, friendly character who loves spending time with her dad.

We will check your reading records once a week where you will have an opportunity to change your book. Remember to have your book and reading log with you every day.
